Ed Armstrong, (202) 737-0202 [Ed@aabc.com](mailto:Ed@aabc.com)

(Washington, D.C. January 16, 2020) – The [Associated Air Balance Council](#) (AABC) will exhibit at [AHR Expo 2020](#), the world's largest HVACR marketplace, in booth 6253, collocated with its affiliated associations, the [AABC Commissioning Group](#) and [Energy Management Association](#).

Highlights of AABC's appearance include a presentation led by Mike Kelly, TBE, CxA (American Testing, Inc.), *Fundamentals of Test, Adjust, & Balance for Engineers, Cx & Energy Providers*. This practical, information-packed session explains many of the key test and balance challenges—from practical system design considerations, to the TAB Process, to obtaining meaningful and useful data—that if properly addressed in cooperation with an independent TAB firm, can ensure that any project goes smoothly. (Feb. 3, 2:30 PM - 3:30 PM Room W312C)

AABC is a co-presenter of [CxEnergy 2020](#) the only conference and expo dedicated exclusively to Cx and energy management (April 6-9, San Diego, CA). Attendees of the [Technical Program](#) earn continuing education credits for presentations covering Cx and energy management, updates of key standards (e.g. ASHRAE 90.1 and California Title 24), and topics such as cybersecurity for energy managers. New this year is *HyperScale Data Center Commissioning and Construction*, a 2-hour session bringing together experts from industry heavyweights like Google, Facebook and Microsoft with Cx providers and contractors for a lively discussion on commissioning facilities. Also new this year, in partnership with the Uptime Institute, a full-day seminar entitled *Introduction Mission Critical Environments*.

CxEnergy offers pre-conference workshops and seminars such as AABC's TAB & Cx Seminar for CxAs and certification exams for Certified Commissioning Authority ([CxA](#)) and Energy Management Professional ([EMP](#)). [CxEnergy's Expo Hall](#) showcases a variety of products including controls, software, instruments, metering devices and services targeted specifically to Cx, energy management, engineering and testing firms. The event features networking activities such as EMA's CxEnergy Open Golf Tournament at the nearby Steele Canyon Golf Course.

[AABC](#) is a nonprofit association of qualified independent test and balance (TAB) agencies that establishes industry standards for the field measurement and documentation of HVAC systems, and provides education, technical training, and certification for its members.
